It is a work that will appeal to all who are interested in the legends and mytheology of the stars which are presented in a highly entertaining manner. The Book of Stars for Young People--By William Tyler Olcott. Illustrated. Cloth bound. 411 pages. In this work Mr. Olcott has given us a valuable and most attractive addition to the several books he has produced on astronomy, and one that will be welcomed by adults as well as young people. It is richly and profusely illustrated and gives special attention to the mythology of the stars. History of Astronomy, by George Forbes, is now out of print and will not be republished. 7 he day of the month is given in the column at the left, Jupiter is indicated by the central circle. The position of the satellite is indicated by a dot and its designation by the numeral 1, 2, 3 or 4. The direction of motion of the satellite is indicated by the position of the FIGURE in relation to the dot--that is, if the figure is on the right side that is its direction, and to the left if on the lefthand side. The light discs at the left indicate the satellites transits, and the dark discs at the right their eclipses and occupations PLANETARY CONFIGURATION FOR JUNE.
