Brand New Book ***** Print on Demand *****.Excerpt from The Elements of Qualitative Chemical Analysis: With Special Consideration of the Application of the Laws of Equilibrium and of the Modern Theories of Solution This Laboratory Manual forms Parts III and IV of the author s Qualitative Chemical Analysis. It is intended to be used in conjunction with Parts I and II, which are published as a separate volume and which contain the theoretical treatment of the subject. It will be sufficient to state here that Parts I and II include a discussion of the development and experimental foundations of the modern theories of solution; of the application of the laws of chemical and physical equilibrium to reactions used in analytical chemistry; of the theory of complex ions; of the electric theory of oxidation and reduction; and of the remaining important typical chemical actions used in analysis; all with special attention to substantiating the theoretical treatment by lecture experiments. All of these topics are frequently referred to and intimately involved in the work of the laboratory course in qualitative analysis herewith presented. The Laboratory Manual...
