Brand New Book ***** Print on Demand *****.Excerpt from The Alternate Sex: Or the Female Intellect in Man, and the Masculine in Woman I have endeavoured in this book to set forth the following views: That Men and Women are, in strict accordance with the opinion of the most recent physiologists, radically different as regards both body and mind, although social or domestic life has given them much in common. That in proportion to the female organs remaining in man, and the male in woman, there exists also in each just so much of their peculiar mental characteristics. That this female mind in man, having free access to the images stored in the cells of memory, calls them forth in dreams and reveries, the same being true as regards the masculine mind in woman. That this casts much light on the true nature of the Imagination, and all creative action of the mind, involving originality, as is explained in detail in the text. That what has of late years occupied much thought as the Subliminal Self, the Inner Me, the Hidden Soul, Unconscious Cerebration, and the like, may all be reduced to or fully explained by the Alternate Sex in us.
