Basic Information Title: Introduction to Functional Materials List Price: 30.00 yuan Author: Xia Ming Press: Harbin Institute of Technology Press Publication Date: August 2009 ISBN: 9787560313849 word count: 405.000 yards: Revision: Binding: Paperback: 16 Item ID: 1230034 Edit recommend the development direction of the cross-frontier on behalf of the materials in the field of fusion related disciplines; the progressiveness scientific experts. academicians write books to reflect the latest achievements of materials science; readability acquaintance sexual content rich and informative material engineering practice . Abstract book consists of five parts. The first part is the scientific basis of the functional material. including crystallography basis and material properties. polymer base; second part is a metal functional materials. including a superconducting material. the hydrogen storage alloy. a shape memory alloy. amorphous alloy. a magnetic material; The third part is inorganic non-metallic functional materials. including semiconductor materials. microelectronic device materials. optical materials. fine functional ceramics. nanomaterials. functional conversion material; fourth part of the functional polymer materials. including polymer reagents and solid-phase synthesis polymer catalyst immobilized enzyme and polymer integration agent. photosensitive conductive polymer materials; fifth part is the low-dimensional functional materials. including functional thin film materials. new functional materials. The book can be used as the colleges of materials science undergraduate textbooks. and also as a graduate teaching reference books are also available for the scientific and technical personnel engaged in the work of Materials Research and Application Reference. Crystallography and material properties of Contents Chapter 1 1.1 crystal characteristics 1.2 chemically synthetic polymer 1.3 crystal structure of the crystal types 1.4 crystal defects 1.5...
