Reality Press. Paperback. Book Condition: New. Paperback. 364 pages. Dimensions: 9.0in. x 5.9in. x 0.9in. *Tranceformers: Shamans of the 21st Century* is the true story of this author's contact with a dead physicist colleague, and the telepathic communication that forced him to seek scientific answers to spiritual questions such as these classics: Who are we? In short, he has built on a solid academic foundation that spans many disciplines: anthropology, archaeology, astronomy, astrology, physics, psychology, biology, history, mathematics, and medicine to name but a few. Moreover, this is an easy-to-read, intelligent, honest book not to be overlooked as Harper spews scientific theory and salutes spiritual teachings equally. He sees no contradiction between these...
