OPTICS IN BIOMEDICAL SCIENCES: PROCEEDINGS OF THE INTERNATIONAL CONFERENCE, GRAZ, AUSTRIA, SEPTEMBER 7 11, 1981

[DOWNLOAD](#)

Springer. Paperback. Book Condition: New. Paperback. 274 pages. Dimensions: 9.2in. x 6.1in. x 0.7in. As there recently has been increased interest in the applications of optical techniques in biomedical research and clinical diagnostics, it seemed to be appropriate to organize a comprehensive international conference on optics in medicine and biology. Such a broad international meeting had not been held before. An international conference on Optics in Biomedical Sciences was organized and took place in Graz, Austria, September 7th through 11th, 1981, sponsored by the International Commission for Optics (ICO) in co operation with the European Optical Committee, the Austrian Association on Biomedical Engineering, and the German Society for Applied Optics. It seemed timely to establish a forum for communication among specialists on an international level. This book, presenting the papers given at this conference, demonstrates the state of the art of this increasingly expanding field of applications of optics. Furthermore, the interested reader will find an extended list of references in the various contributions. This book helps to overcome the difficulty, inherent in all interdisciplinary research fields, of gathering widely scattered literature. The contributions to this book are focussed on the following topics: Biomedical applications of - unconventional imaging in microscopy, - image processing, - interferometry and holography, - speckle-techniques and spectroscopy, - optometry, and - Moire methods. In addition, the brilliant and humorous closing remarks of Nils Abramson from the Royal Institute of Technology, Stockholm, have been included. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
