Brand New Book ***** Print on Demand *****.Excerpt from Stephenson s: Illustrated Practical Test, Examination and Ready Reference Book for Stationary, Locomotive and Marine Engineers, Firemen, Electricians and Machinists to Procure Steam Engineer s License The reason for the publication of this book is, that having given over 25 years of my life to the careful study and practical workings of Boilers, Engines, Pumps, Electric Light Dynamos, Turning Laths, Planers, Shapers and general Machine Shop practice, I thought it proper to give the rising young mechanics and engineers such information in plain simple language so as to be easily understood, and save years of time and money in gathering the information through other sources. It is only necessary to say that the longer one labors in practical mechanics, the more mature is his mind and judgment and the better qualified he is to carry on his work. This book is written especially for Mechanics who wish to prepare themselves in procuring Government, State or City License as an Engineer.
